## PURPOSE:

To establish Department guidelines for the use of deadly and non-deadly responses to resistance that are consistent with applicable law, procedures for the investigation and reporting of response to resistance incidents, and training requirements related to response to resistance.

## PROCEDURE:

It is the policy of the Arlington Heights Police Department to utilize a reasonable response to resistance in achieving a lawful objective as provided by the 4th Amendment to the Constitution of the United States of America, which states:

*"The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized."*

The response used by any officer of the Arlington Heights Police Department shall adhere to the requirements set forth in 720 ILCS 5/7-5 (Refer to Appendix 'A'), other related statutes, applicable case law, department general orders and training.

It is the responsibility of all Department officers to have a clear understanding and respect for the limitations of their authority. It shall be the duty of all officers to be familiar with applicable laws governing response to resistance, Department policy and established training.

## **I. Definitions**

- A. ADMINISTRATIVE REVIEW - A documented review of an incident or occurrence prepared by or for the Chief of Police, or designee. The review should indicate whether

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

policy, training, equipment, or disciplinary issues should be addressed.

- B. HIGH LEVEL RESPONSE TO RESISTANCE - Any response to resistance which is reasonably likely to cause death or great bodily harm.
- C. IMMINENT DANGER - Immediate, likely to happen without delay.
- D. NON-DEADLY RESPONSE TO RESISTANCE - The use of force other than that which is considered deadly force. This includes any physical effort used to control or restrain another, or to overcome the resistance of another.
- E. OBJECTIVELY REASONABLE - As defined by 720 ILCS 5/ 7-5 Peace Officer Use of Force, in determining the necessity for a response to resistance and the appropriate level of force to apply, officers shall evaluate each situation in light of the known circumstances, including, but not limited to, the seriousness of the crime, the level of threat or resistance presented by the subject, and the danger to the community.
- F. REASONABLE BELIEF - The facts or circumstances that the officer knows, or should know, which are such as to cause an ordinary and prudent person to act or think in a similar manner under similar circumstances.

The United States Supreme Court in *Graham v Connor* 490 U.S. 386 (1989) stated "the reasonableness of a particular use of force must be judged from the perspective of a reasonable officer on scene, rather than the 20/20 vision of hindsight."

Therefore, the totality of information known to the officer at the time of action, not what is learned thereafter, is the basis upon which such police actions shall be reviewed.

- G. SERIOUS PHYSICAL INJURY - Any bodily injury that creates a substantial risk of death, causes serious permanent disfigurement, or results in long-term loss or impairment of the function of any bodily member or organ. (Serious Physical Injury may also be termed Great Bodily Harm).

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

H. WARNING SHOT - The discharge of a firearm into the air or the ground in an attempt to warn the suspect that additional force may be imminent.

## II. Response to Resistance Principles

- A. Pursuant to Chapter 720 ICLS, Act 5/ Article 7, an officer may respond to resistance in the performance of his or her duties when reasonable and necessary to:
1. Accomplish a lawful objective;
  2. Prevent or terminate the commission of an offense;
  3. Effect an arrest, including those resisting arrest;
  4. Prevent an escape or prevent an attempt to flee custody;
  5. In self-defense or defense of another.
- B. Pursuant to the Mental Health Act, an officer may respond, in non-deadly manner, to non-deadly resistance when reasonable and necessary to provide protective custody or an involuntary admission of a subject. This section applies when the mentally ill, mentally incompetent or mentally disabled person is:
1. Resisting efforts to be subdued for his or her own protection; or
  2. Committing an act dangerous to themselves; or
  3. Committing an act dangerous to an Officer or others.
- C. When encountering resistance while effecting an arrest, an officer:
1. Need not retreat or desist from efforts to make a lawful arrest because of resistance or threatened resistance to the arrest.
  2. Is justified in the use of any response in which the officer reasonably believes to be necessary to effect the arrest and of any response which he reasonably

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

believes to be necessary to defend himself or another from bodily harm while making the arrest.

- D. Pursuant to 720 ILCS 5/7-9, Use of Force to prevent Escape, an officer who has an arrested person in his or her custody is justified in the use of force to prevent the escape of the arrested person from custody as he or she would be justified in using if he were arresting such person.
- E. An officer, or any person whom he has summoned or directed to assist him, need not retreat or desist from efforts to make a lawful arrest because of resistance or threatened resistance to the arrest.
- F. Justification for the response to resistance is limited to what is reasonably known or perceived by the officer **at the time of the event** and only that which is necessary to accomplish lawful objectives based on the officer's training and experience.
  - 1. Facts discovered after the event, no matter how compelling, cannot be considered in later determining whether the force was justified.
  - 2. Justification for the use of force is based on the officer's reasonable perception of the injury or potential injury to the officer or another person, as a result of the subject's illegal action if the action is not stopped in a timely manner.

### **III. Response to Resistance Options**

- A. The response to resistance options, in increasing order of severity, are set forth as follows:
  - 1. De-Escalation Techniques
  - 2. Non-Deadly Response to Resistance
  - 3. Deadly Response to Resistance
- B. It is not the intent of this Order to restrict officers in the initiation of a response to resistance at the lowest level of severity before escalating in a progressive manner or to allow any suspect to be the first to exercise

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

force, thus gaining an advantage in a physical confrontation. The evaluation of the circumstances surrounding each situation and the use of good judgment will dictate the choice of a response(s) to resistance.

C. Officers exercising any response to resistance are accountable for its use.

#### **IV. De-Escalation Techniques**

A. Officers are strongly encouraged, when appropriate and tactically sound, to utilize de-escalation techniques as a manner to gain voluntary compliance. De-escalation techniques may include, but are not necessarily limited to:

1. Verbal Persuasion and/or Communication Tactics such as the practice of courtesy and effective communication in an effort to encourage understanding and cooperation on the part of the public and that of the offender(s) to be arrested.
2. Utilizing distance and cover, or containing a threat, in order to generate additional time during which other response options may be assessed or additional resources requested. Placing barriers between an uncooperative, aggressive subject and an officer(s) may be utilized to 'slow down' a situation that does not pose an immediate threat.
3. Moving from a position that exposes the officer to potential threats to a safer position (tactical repositioning).
4. Requesting additional resources, such as additional officers, supervisors, or specialty units (Crisis Intervention Team, CIT).

B. The use of de-escalation techniques to achieve voluntary compliance is the desired method of gaining compliance from the public, placing an offender into custody and/or defusing potentially violent situations. However, recognizing that not all persons will comply with lawful verbal commands and submit to arrest and/or cease aggressive or violent actions, other responses to resistance by police may be necessary to effect an arrest

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

and to protect the officer or others during the arrest process.

#### **V. Non-Deadly Responses to Resistance**

The following responses to resistance options are intended to be non-deadly and are authorized:

##### **A. Physical Force**

1. Physical force shall include, but not be limited to, self-defense tactics such as strikes or kicks, physical restraint techniques, and/or mechanical controls.
2. Officers should utilize physical force consistent with Department-approved physical force training. This section should not be construed to create a requirement for limiting physical force to that which has been trained in, when exigency or unusual circumstance exists.

##### **B. Oleoresin Capsicum (OC) when used in accordance with Department policy;**

1. Authorized oleoresin capsicum shall not be carried by any officer until they have received Department-approved training in its proper use.
2. Oleoresin capsicum may be used in situations where verbal persuasion is ineffective or inappropriate and officers may have to use physical force to maintain control.

##### **C. Conducted Electrical Weapon (CEW) used in accordance with Department policy.**

1. Only officers who have successfully completed Department-approved training for use of electro-muscular disruption weapons shall be permitted to carry or deploy such weapons.
2. Electro-muscular disruption weapons may be used to control a dangerous or violent subject, or when there is a reasonable expectation that it is unsafe

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

for officers to approach within contact range of the subject.

3. Electro-muscular disruption weapons may also be used to subdue individuals who pose an immediate risk to themselves or others, or to safely effect an arrest. Comprehensive guidelines for the utilization of electro-muscular disruption weapons are outlined in General Order #1.10 - Electro-Muscular Disruption Weapons (Tasers).

D. Expandable Impact Baton when used in accordance with Department policy;

1. Officers shall not carry or utilize the authorized baton until they have received Department-approved training in its proper use.
2. Department issued batons shall not be altered in any way except that, a baton grip end cap may be attached at the officers discretion.
3. Baton strikes shall be directed at target areas that are objectively reasonable based on the circumstances at hand and the level of the threat encountered. (Refer to Appendix 'B' - Escalation of Trauma by Vital and Vulnerable Areas)
  - a. Primary Target Areas (Green) - Minimal level of resultant trauma.
  - b. Secondary Target Areas (Yellow) - Moderate level or resultant trauma.
  - c. Final Target Areas (Red) - Highest level of resultant trauma, with potential for serious physical injury and/or death. Final Target Areas should be avoided unless a deadly response to resistance is warranted.

E. Department issued Less Lethal Munitions used in accordance with Department policy.

1. Only officers who have successfully completed Department-approved training for use of less lethal

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

impact munitions and have been designated as *Less Lethal Officers* shall be permitted to carry or deploy less lethal impact munitions.

2. Deployment of impact munitions shall only occur at the direction of an On-Duty Patrol Bureau Supervisor or other supervisory/command officer, unless it is reasonably likely that failure to take immediate action would result in injury, death, or serious property damage.

3. Less lethal impact munitions shall be directed at target areas based on the circumstances at hand, established safety priorities, the exigency of the situation, and the level of force that is authorized. Comprehensive guidelines for the utilization of less lethal impact munitions are outlined in General Order #1.7 - *Less Lethal Impact Munitions*.

F. Canines, under certain conditions in accordance with Department policy, may be deployed as a response to resistance option.

G. The use of any instrument, equipment or tactic not authorized in this order is prohibited unless when used in an exigent circumstance.

## **VI. Deadly Response to Resistance**

A. An officer is justified in using a deadly response to resistance when the officer reasonably believes that such a response is necessary to prevent death or great bodily harm to the officer or another person.

B. An officer is further justified in the use of a deadly response to resistance when the officer reasonably believes both that:

1. Such a response is necessary to prevent the arrest from being defeated by resistance or escape; **and**

a. The person to be arrested has committed or attempted a forcible felony which involves the infliction or threatened infliction of great bodily harm, **or**

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

b. The person is attempting to escape by use of a deadly weapon, or

c. The person indicates that he will endanger human life or inflict great bodily harm unless arrested without delay.

### C. Use of Firearms

1. A police officer may discharge a firearm in the performance of his official police duty for any of the following reasons:

a. When the use of said firearm is consistent with those standards outlined in Section VI of this order;

b. When engaged in training, qualification, or practice on the Department range or at other authorized locations.

c. To kill a severely injured or vicious animal that poses an immediate threat to the public or Department personnel when other disposition is impractical, and if time permits, when authorized by a supervisor.

2. Where feasible, and where such action does not increase the level of danger to the officer or others, a warning or command should be given before deadly force is used (Tenn. v. Garner), such as "Police! Stop, or I'll shoot!".

3. The following practices regarding the use of firearms are strictly prohibited.

a. Firing a warning shot(s).

b. Firing into a crowd, unless the offender offers an imminent or immediate threat of death or great bodily harm.

c. Firing at or from a moving vehicle unless:

i. There exists an imminent or immediate threat of death or great bodily harm offered by the

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

driver or occupants of the vehicle to the officer or others; or

ii. Where the escape of an offender(s) otherwise indicates that he / they will endanger human life or inflict great bodily harm unless arrested without delay. This may include the offender's use of a vehicle as a deadly weapon, but **NOT** solely as means of escape.

- d. Firing into a building, through doors or barriers behind which an offender is hiding, unless the offender offers an imminent or immediate threat of death or great bodily harm and the offender's location can reasonably be identified.
- e. Loading, unloading, or checking any firearm in the immediate area of any other person, or in or about the police station, except in the performance of official duty.
- f. Leaving firearms unsecured in any location at the police facility.

#### D. Prohibited Responses to Resistance - Chokeholds

1. An officer shall not use a chokehold in the performance of his or her duties, unless a deadly response to resistance is justified.
  - a. A chokehold means applying any direct pressure to the throat, windpipe, or airway of another with the intent to reduce or prevent the intake of air.
  - b. A chokehold **does not** include any holding involving contact with the neck that is not intended to reduce the intake of air.
2. A peace officer shall not use a chokehold, or any lesser contact with the throat or neck area of another in order to prevent the destruction of evidence by ingestion.

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

**VII. Duty to Intervene**

Any officer present and observing another officer using force that is clearly beyond that which is objectively reasonable under the circumstances shall, when in a position to do so, safely intercede to prevent the use of such excessive force. Officers shall promptly report these observations and your associated action to a supervisor. As outlined in General Order #26.1 - *Rules of Conduct*.

**VIII. Medical Aid**

- A. The arresting officer is responsible for ensuring medical aid is provided for any person who has sustained visible injury, expressed a complaint of pain, or who has been rendered unconscious as a result of the response to resistance.
- B. Appropriate medical aid may include increased observation to detect obvious changes in condition, flushing oleoresin capsicum from the eyes and face with water, applying first aid as needed, evaluation by paramedics, or for more life threatening incidents, immediate aid by medical professionals.

**IX. Reporting the Use of Non-Deadly Responses to Resistance**

- A. Any time a police officer uses force, other than force that causes serious physical injury or death, in the performance of duty, the officer shall document the circumstances surrounding their action(s) in an ***Incident/Offense Report*** or ***Supplemental Report***.
- B. An On-Duty Supervisor shall be notified and complete a ***Response to Resistance - Supervisor's Investigation Report*** (Refer to Appendix 'C') whenever an officer:
  - 1. Applies a non-deadly response to resistance through the use of a Department issued weapon/equipment other than a firearm.
  - 2. Applies a non-deadly response to resistance through the use of physical force at a level which causes, or is alleged to have caused, any physical injury.

SUBJECT:

**RESPONSE TO RESISTANCE**

ISSUE DATE:

JAN 13, 2017

AMENDED DATE:

MAY 14, 2020

- C. The On-Duty Supervisor shall generally complete the **Response to Resistance - Supervisor's Investigation Report** prior to the end of their tour of duty and forward the report to the Chief of Police through the chain of command. In cases wherein the Response to Resistance is subject to an ongoing investigation, the On-Duty Supervisor may delay the submission of the report with the approval of his/her Division Deputy Chief.
- D. The **Response to Resistance - Supervisor's Investigation Report** shall be reviewed at each level of command to determine whether there are any policy, training, weapon/equipment, or disciplinary issues which should be addressed. Appropriate commentary may be added to the report in the space provided prior to forwarding the document to the next level of command.
- E. After a final review by the Chief of Police, completed **Response to Resistance - Supervisor's Investigation Reports** shall be forwarded to the Deputy Chief of the Administrative Services Division for filing.
- F. The Deputy Chief of the Administrative Services Division is responsible for conducting a documented annual analysis of all **Response to Resistance - Supervisor's Investigation Reports** to determine if any patterns or trends are revealed which may indicate training needs, equipment upgrades, and/or policy modifications. The analysis should also include a review of all assaults on Department officers to determine trends or patterns, with recommendations to enhance officer safety, policy revisions, and/or training issues.

#### **X. Reporting of Firearm Discharges**

- A. Whenever an officer discharges a firearm which results in property damage, whether accidentally or deliberately, or accidentally discharges a firearm causing non-life threatening injuries to another member of this Department, the officer shall:
1. Take all reasonable steps to obtain emergency medical attention for all apparently injured individuals.
  2. If the incident occurred within the jurisdictional limits of the Village of Arlington Heights,

SUBJECT: <b>RESPONSE TO RESISTANCE</b>	ISSUE DATE: JAN 13, 2017	AMENDED DATE: MAY 14, 2020
---	-----------------------------	-------------------------------

immediately notify the On-Duty Patrol Bureau Supervisor.

3. If the incident occurred in another jurisdiction, immediately contact the appropriate law enforcement agency to report the incident and initiate an investigation. As soon as practical, the On-Duty Patrol Bureau Supervisor of this Department shall also be notified.

B. When notified of an incident involving the accidental or deliberate discharge of a firearm which results in property damage, or the accidental discharge of a firearm causing non-life threatening injuries to another member of this Department, the On-Duty Patrol Bureau Supervisor shall initiate notification of the command staff pursuant to the procedures outlined in General Order #41.9 - Notification Procedures.

**XI. Reporting High Level Responses to Resistance**

Reporting procedures, investigation, and notifications associated with high level response to resistance incidents which result in serious physical injury or death, or accidental discharges of a firearm causing non-life threatening injuries to a person other than a member of this Department, shall be consistent with General Order #1.5.1 Investigation of High-Level Response to Resistance.

**XII. Training**

A. All Department personnel authorized to carry firearms and/or less lethal weapons shall be issued a copy of this Order and be instructed in the Department's response to resistance policies prior to being authorized to carry any firearm or less lethal weapon.

B. At least annually, all Department personnel authorized to carry weapons shall receive in-service training on the Department's response to resistance policies and demonstrate proficiency with all approved firearms the employee is authorized to use. In-service training for less lethal weapons and weaponless control techniques shall occur at least biennially.

**APPENDIX 'A' - PEACE OFFICER'S USE OF FORCE IN MAKING ARREST**

Illinois Compiled Statutes - 720 ILCS 5/7-5

Sec. 7-5. Peace officer's use of force in making arrest.

(a) A peace officer, or any person whom he has summoned or directed to assist him, need not retreat or desist from efforts to make a lawful arrest because of resistance or threatened resistance to the arrest. He is justified in the use of any force which he reasonably believes to be necessary to effect the arrest and of any force which he reasonably believes to be necessary to defend himself or another from bodily harm while making the arrest. However, he is justified in using force likely to cause death or great bodily harm only when he reasonably believes that such force is necessary to prevent death or great bodily harm to himself or such other person, or when he reasonably believes both that:

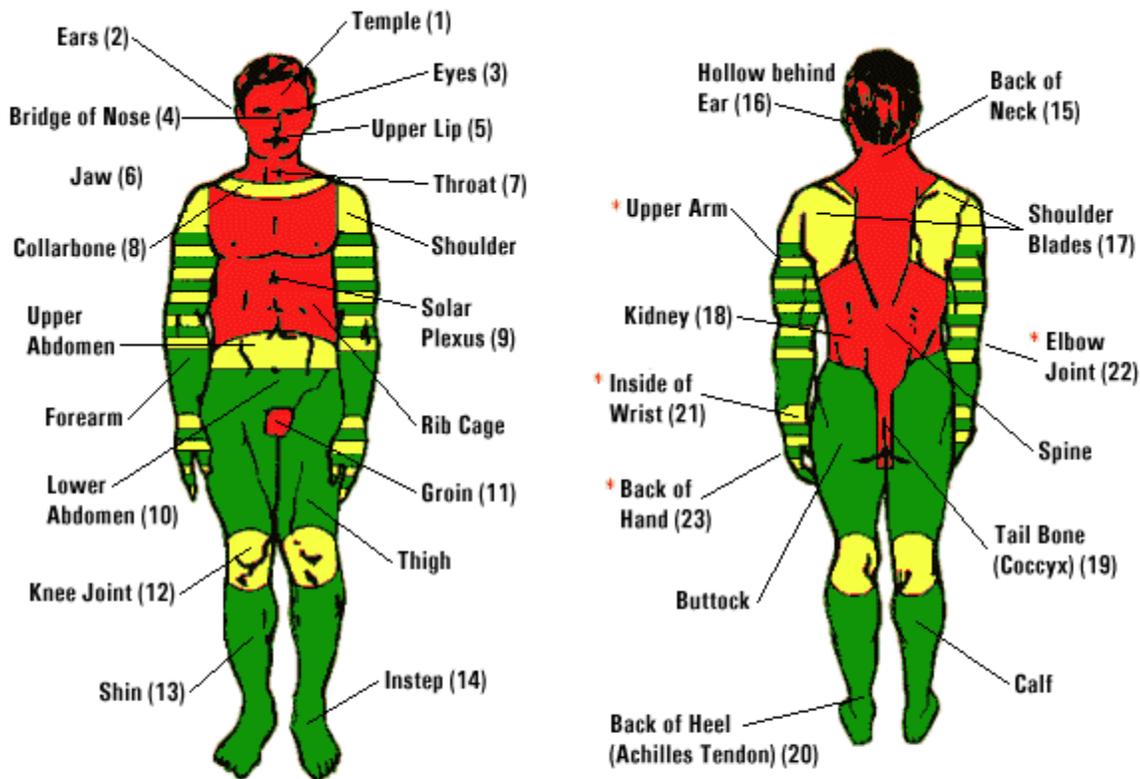

(1) Such force is necessary to prevent the arrest from being defeated by resistance or escape; and

(2) The person to be arrested has committed or attempted a forcible felony which involves the infliction or threatened infliction of great bodily harm or is attempting to escape by use of a deadly weapon, or otherwise indicates that he will endanger human life or inflict great bodily harm unless arrested without delay.

(b) A peace officer making an arrest pursuant to an invalid warrant is justified in the use of any force which he would be justified in using if the warrant were valid, unless he knows that the warrant is invalid.
